

Environmental Policy

Hurlag Oil and Gas International Ltd. Is committed to preserving ecological balance in our areas of operations by:

- ❖ Fully understanding the environmental impacts of our operations, services, equipment and continually look for ways to minimize these impacts.
- ❖ Adhering to environmental standards such as the ISO 14001:2004 and continually improving our management systems.
- ❖ Complying with applicable environmental legislation and regulations of the States and the Federal Republic of Nigeria and other applicable requirements thereby minimizing the environmental impacts of our operations.
- ❖ Improving energy efficiency, reducing emissions to air, water and land by using best available technology and thereby address the cause of climate change.
- ❖ Working with stakeholders to mitigate the environmental impacts of product life cycle and the supply chain
- ❖ Establishing and reviewing environmental goals and objectives and auditing our processes in order to assess our performance and achievements against set standard.
- ❖ Communicating our environment policy to our employees and contractors as well as make it available to other stakeholders and interested parties.

This policy shall be reviewed periodically and at least annually by myself and members of the board of directors in order to ensure that it is current, suitable and relevant to the company's business activities.

As **Managing Director**, I am committed to the Environmental Policy which is owned and endorsed by the Board of Directors. Responsibility for the successful implementation of this programme belongs to every Hurlag Oil and Gas International Ltd. employees at each level and function in the organization.
